

RICHLAND COUNTY TRANSPORTATION RESOURCE GUIDE

Connecting you with transportation services.

Mobility Management is your connection to Richland County transportation services.

The Mission of Mobility Management

Mobility Management's mission is to provide access to transportation information and resources so that all residents, including older adults, people with disabilities, and individuals with limited incomes, can access a wide range of transportation solutions to ensure mobility in and around Richland County.

Richland Transportation Advisory Coalition (RTAC)

Mobility Management was formed to meet RTAC's goals of coordinating trips between consumers and a human services agency with local contracted transportation providers. **RTAC** monitors transportation services available within the county for older adults and persons with disabilities. The committee provides input regarding the availability and effectiveness of these services within the community and the need for additional services for this target population.

Randy Hutchinson
